“Clean Up Bangkok River 2019” at Chatrium Hotel Riverside Bangkok

Chatrium Hotel Riverside Bangkok was honoured to host the “Clean Up Bangkok River 2019” event together with the British Embassy recently. British Ambassador to Thailand, H.E. Brian Davidson (left), together with Resident Manager of Chatrium Hotel Riverside Bangkok, Mr. Chatchawan Napawan (right), presided over the opening ceremony, with many keen volunteers participating in this worthy event which is supported by the Bangkok Metropolitan Administration. The event was held as part of global “World Ozone Day” activities.

As part of a highly respected Thai company, Chatrium Hotel Riverside Bangkok is very proud and pleased to give something back to our community through these extremely important events and our “Think First, Think Earth” sustainability programs. We look forward to the hotel’s next Corporate Social Responsibility project to assist the environment and the wider community.
