3 dedicated trade shows for built industry – BMAM Expo Asia 2019, K-Fire & Safety Expo Bangkok 2019 and LED Expo Thailand 2019 + Light ASEAN

IMPACT Exhibition Management Co., Ltd. (“IMPACT”) in collaboration with MEX Exhibitions Pvt. Ltd. (“MEX”) and EXCO Co., Ltd. (“EXCO”), are all set to for BMAM Expo Asia 2019 (BMAM”), K-Fire & Safety Expo Bangkok 2019 (“K-Fire”) and LED Expo Thailand 2019 + Light ASEAN (“LED Expo”). This new combined regional exhibition for the building maintenance and facilities management; safety and security; and lighting, will be held from 27 to 29 June 2019, Hall 6-8, IMPACT Exhibition Center, Bangkok. More than 350 exhibitors and 15,000 trade professionals are expected to attend this three-day event.

THE one-stop ASEAN platform for LED, Facilities Management, Fire and Safety markets
Mr. Loy Joon How, General Manager, IMPACT, revealed, “The global LED lighting market is expected to reached USD54.28 billion by 2022, with a compound annual growth rate of 13% during 2017 – 2022. Thailand’s LED lighting markets account for 12% of the total LED lighting market, with a significant compound annual growth of 30%, while Thailand’s integrated facilities management market recorded 10 billion baht in value, with an annual growth rate of 5%.

For this reason, IMPACT, MEX and EXCO have decided to co-locate BMAM, K-Fire and LED. Together, these three dynamic trade exhibitions offer a one-stop sourcing platform for all aspects of lighting, facilities management, fire and safety.

Mrs. Kanokporn Damrongkul, Director of Exhibitions Department, Thailand Convention and Exhibition Bureau (TCEB) states “TCEB is pleased to have the opportunity for another year to support BMAM Expo Asia 2019 and LED Expo Thailand 2019 + Light ASEAN. This year’s support includes Performance Booster and Exhibiz in Market campaigns, both reflecting a success in our collaboration to boost growth and development of the show on a sustainable basis and reinforcing the role of Thailand as a platform of international trade shows in the ASEAN region which are in line with TCEB’s policy. To further develop the show into innovation and hi tech-based event in alignment with Thailand 4.0 policy, TCEB as a government agency, is ready to be a partner in driving the show towards that goal.
LED Expo Thailand 2019 + Light ASEAN
In its 7th edition, LED Expo – ASEAN’s largest international exhibition on LED technology & lighting solutions, presents a platform to create awareness around LED-centric applications that can be put to use in various spheres. Key highlights include the following:
• LED Technical conference features a wide range of academic sessions by renowned leaders in the world of lighting;
• Lighting Demonstration showcases advanced lighting solutions;
• BUILD presents a comprehensive conference for buyers in Electrical Electronics and PCB industries;
• Smart Lighting & Smart City Zone showcases new technology for smart city;
• Made In Thailand Zone for Thai LED manufacturers;

• LED Signage displays innovative and trending LED signage; and
• PCB Zone highlights the high-performance PCB technology.
