

Anantara Donates Over THB 1.8 Million to the Princess Sirindhorn Craniofacial Center at Chulalongkorn Hospital

Anantara Donates Over THB 1.8 Million to the Princess Sirindhorn Craniofacial Center at Chulalongkorn Hospital

Bangkok, April 17th, 2019: Anantara Hotels and Resorts recently donated over THB 1.8 million to the Princess Sirindhorn Craniofacial Center at King Chulalongkorn Memorial Hospital as part of the brand's on-going CSR campaign - Dollars for Deeds.

The Princess Sirindhorn Craniofacial Center, honouring HRH Princess Maha Chakri Sirindhorn, located in the King Chulalongkorn Memorial Hospital under the Thai Red Cross Society and the Faculty of Medicine, is the first center for craniofacial problems and operations in Southeast Asia. A dedicated team of doctors and medical staff treat patients, generally young children, with a range of problems relating to the head, eyes, nose, mouth, brain and the face, all of which not only affects the patients but also their families.

Anantara's Dollars for Deeds program, invites guests to donate THB 30 for each night of their stay with the hotels matching their donation to raise funds for a range of worthy causes. The programme, not only allows guests to enjoy a luxurious stay at Anantara but also leaves them knowing that they have made a positive difference to the local environment and community during their holiday.
