

Chubb Life Expands Education@Heart

Bangkok, February 25th 2019 - Chubb Life in Thailand has expanded its "Education@Heart" initiative to provide support for six underprivileged schools in the upcountry. This builds on its annual Regional Day of Service activities in 2018.

To help Thai youth advance their learning, Chubb Life collaborated with more than 150 of our life insurance agents and agency office owners across Thailand to support schools in need by donating books, sports equipment and other essential school supplies.

Schools receiving "Education@Heart" supplies include Ban Phong Phong School, Pattani; Bantannamphung School, Yala; Naresuan Huay Pueng School, Prachuap Kirikhan; Ban Nong Prue School, Chonburi; Ban Pang Mai Dang School, Chiang Mai and Ban Kong Pra Sai School, Buriram. In addition, Chubb Life provided a water filtering system with a cooler tank to Ban Kong Pra Sai School which suffered extensive damage during a fire in August 2018. This gift has given students safe and hygienic access to water.

Angela Hunter, Country President of Chubb Life in Thailand, said: "We are proud to have collaborated with our life insurance agents and agency office owners on "Education@Heart," an initiative aimed at enriching young Thai people's knowledge of health, helping them to build a foundation for future growth and support their communities."
