

Fight for the Future: Kaspersky partners with 20th Century Fox for Terminator Dark Fate

Movie tickets and more exciting prizes await Kaspersky online customers in SEA

Global cybersecurity company Kaspersky teams up with Twentieth Century Fox for the launch of its “Terminator: Dark Fate” promo where thousands of tickets for the latest sci-fi action movie is up for grabs for all of its digital customers in Southeast Asia.

For every single purchase of Kaspersky solutions including Kaspersky Internet Security (KIS), Kaspersky Total Security (KTS), and Kaspersky Security Center (KSC), customers will get free tickets to see the gritty and intense sequel to the blockbuster 90s hit Terminator 2. This promo begins on September 1 to November 15 this year.

Best to be experienced on the big screen, “Terminator: Dark Fate” is the much-awaited, high-octane installment in the Terminator franchise. In this ultimate action chase spectacle, a technologically enhanced human warrior from the future will emerge to protect an unsuspecting young woman from a lethal, relentless, state-of-the-art Terminator called Rev 9.

This film reunites Arnold Schwarzenegger as T800 and Linda Hamilton as Sarah Connor, who hunts and kills Terminators in the past.

“We are excited to have this movie as our treat to our loyal customers. The newest Terminator flick will showcase all the potential breakthroughs in technology and what the future would look like utilizing disruptive technologies. It’s similar to what we do at Kaspersky — as we keep on staying ahead of potential threats, we get to give our customers the low-down on the next cyber threat looming in the web. But we don’t stop there. We continue to build a safer world for our customers as we say, bring on the future!” says Yeo Siang Tiong, general manager for Southeast Asia at Kaspersky.

Customers who purchase any of the Kaspersky products online at kaspersky.com would be able to redeem their tickets via email, regular mail or through pick-up to watch the Terminator film in select cinemas in each of the participating countries.

A purchase of KIS is equivalent to one free ticket while buying either a KTS or KSC license/code means a customer gets two free tickets. The SEA countries included in the promo are Indonesia, Malaysia, the Philippines, Singapore, Thailand, and Vietnam.
