HP Inc. Thailand donates printers to the Mirror Foundation

Bangkok, 28 February, 2020 – HP Inc. Thailand recently donated printers to the Mirror Foundation under the “Com4child” project. The Foundation helps support schools in rural areas that lack computer, printer and IT hardware with the aim to support underprivileged students for a better education.

Mr. Lim Choon Teck, Managing Director, HP Thailand presented a total 350 printers to Veraporn Prasopratanasuk, Head of Communications and Fundraising, the Mirror Foundation and Chutinat Karnchanakul, Art Director. The donation is part of the company’s policy to exercise good social responsibility in supporting the development of a learning society.

The Mirror Foundation was founded in 1991 and has continuously expanded to become one of the most prominent Thai Non-Governmental Organization. To accomplish their primal goal of social development, they promote Human Rights, Education, the use of New Media and Information Technologies, Volunteer training and resources sharing. They strongly believe that it is essential to act as a mirror reflecting society as a whole. To improve social welfare, they thus need to catch both urban and rural reality, to use both new means of communication as social media and traditional ones.
