

Little Creatures to be Let Loose at Venues' Brewski

Brewski rooftop bar is proud to host the Thailand launch of a new craft beer

Venues' Brewski is proud to host the debut of Little Creatures Craft Beer in Thailand, an event eagerly awaited by local and international beer connoisseurs.

Wednesday, April 5, 2017, is a special day in the calendars of everyone who is serious about beer. It marks the moment when Brewski, Bangkok's highest rooftop craft beer bar, in collaboration with B-delicious!, will launch a selection of five new beers created by one of Australia's finest breweries, Little Creatures, for the very first time in the Kingdom.

Lovingly named after the microorganisms that make the production of beer possible in the first place, Little Creatures was founded by a group of friends with the mission to share their creativity and love for craft beer with the world. Their passion and devotion to this project can be felt in all their aromatic brews, each telling a very distinct story through its characteristic flavors and unique composition of ingredients from around the world.

Whether guests would enjoy a smooth, malty Amber Ale to go with hearty flavorful dishes, a strong hoppy India Pale Ale to complement spicy chili-laden foods, a crisp fruity Bright Ale for slightly milder dishes or a refreshing balanced Original Pilsner made with ingredients from Germany to accompany light salads, there will be something for everyone. Those who find it hard to choose can try the full-bodied Pale Ale with hops from the USA and New Zealand. It is great by itself or as a versatile all-rounder when it comes to pairing with Brewski's delicious foods.

Originally started in Fremantle, Western Australia, Little Creatures quickly won the hearts of beer aficionados around Australia, making it necessary to open a second brewery on the country's east coast to satisfy the growing demand for their special, well-balanced beers. Thanks to impeccable ingredients such as hops sourced from leading production regions in the USA, New Zealand and Germany, and the master brewers' creativity and skill, these beers all have their very own character that is sure to take Bangkok's craft beer community by storm.

"As Bangkok's top destination for beer lovers, it was with great pleasure that we worked together with B-delicious! to make the launch of Little Creatures in Thailand a great success. Their beers really tell a story and we are looking forward to letting it unfold here at Brewski," says Radisson BLU Plaza's General Manager Peter Feran.
