“The Estate (Thailand) will complement our property development business by achieving excellence in property sale-rental, and investment consulting services. Our services will start by analyzing customers’ properties, to assess their architectural design, size, location and price to evaluate demand for assets. We will also conduct analysis on competitors.”

The Estate (Thailand) will differentiate itself from others with integrated assistance to customers in moving in or moving out as well as other services like house cleaning, air conditioning cleaning, and primary maintenance. The properties cared for by The Estate (Thailand) and certified according to the company’s standards, will be awarded a certificate as well as a 30-year warranty specifically on 4 areas – building structure, roof leaks, the condition of doors and windows, as well as water pipes – under MQDC’s certification.
