

# Networking for Success is Back

Bangkok's most popular networking event set to relaunch in June 2017

Bangkok, Thailand – June 6, 2017, will mark the relaunch of one of Bangkok's most popular networking events, Networking for Success (NFS). The first of the monthly meetings organized by NFS will feature well-known speaker Dan Schwartz and his presentation "Networking for Millions" followed by a business lunch. All this will take place at the CEO Suites serviced offices in the Athénée Towers office building for a select group of 20 local business leaders.

Originally founded in 2004 by Callum Laing, NFS was taken over by Karin Lohitnavy and Dan Schwartz in 2008, when Callum moved to Singapore to found his now highly successful business. NFS quickly made name for itself as the networking breakfast to attend, before Karin and Dan decided to turn it into Bangkok's premier networking lunch. This made it easier for senior directors and managers to fit into their demanding schedules. When Dan's work took him to the USA more frequently over the last few years, he and Karin decided to rebrand and relaunch NFS once Dan was permanently back in Thailand.

On June 6, 2017, NFS will celebrate this eagerly-awaited comeback. The two organizers and the event sponsor, CEO Suites invite C-level executives to join them in the heart of Bangkok's business district from 12:00 pm until 2:00 pm. After welcoming all participants, Dan Schwartz will set the mood with his presentation "Networking for Millions" and highlight the importance of proper networking for professionals and their businesses. This topic is the ideal introduction to a new chapter of NFS and comes from true experts, as Karin and Dan have recently co-authored a book on the same topic titled "Networking Your Way to Success". It is set to be published by August 2017.

"Networking for Success is the place to be for top-level executives who want to grow their network by meeting the right people and expand their knowledge on topics relevant to personal and professional development. With our lunches tailored precisely to the interests of senior managers we will provide our participants great value and give them the opportunity to build new and lasting connections," explains Karin Lohitnavy, co-manager of NFS and founder of Midas PR Group.

Karin and Dan are both experts on the topic of networking and have spent many years perfecting this art. For Karin, it has helped her grow her company Midas PR Group into one of Bangkok's leading PR companies which recently became a member of Public Relations Organization International (PROI), an association of the world's leading independent PR firms. Dan has been able to use his skills in this area while working for international companies and founding and running his own businesses including P Performance Limited, a company focused on boosting their clients' sales and marketing skills to drastically increase the bottom line.

"I'm excited to be back in Bangkok and really looking forward to relaunching Networking for Success. It's also a great pleasure for me to be the first speaker of our new series. NFS will pick up where we left off, and continue to give top professionals a place to exchange their ideas, find likeminded peers and hopefully establish new, mutually profitable partnerships," says Dan Schwartz, co-manager of NFS and founder and CEO of P Performance Limited.

About Networking for Success:

Networking for Success (NFS) is a networking lunch, held on the first Tuesday of every month and is the only event in Bangkok aimed solely at C-level individuals. NFS gives 20 top executives the opportunity to meet likeminded people in a refined, private setting and share their visions and inspirations. This is paired with a business presentation on engaging topics and a delicious meal at CEO-Suite in Athénée Tower.
