St. Stephen’s students won prizes from Annual IPS Inter-School Mathematics Challenge

St. Stephen’s was represented by teams from Year 1 to Year 9 at the 8th Annual IPS Inter-School Mathematics Challenge. The pupils were very successful, winning 1 individual bronze medal, 2 silver medals and 2 gold medals. The teams were also awarded trophies for coming in 3rd place in Year 8, 2nd place in Year 3 and 1st place in Year 4 and Year 6. What was even more impressive was the behaviour shown by our pupils. They were courteous, polite and well mannered, and a real credit to St. Stephen’s.
