About the Din & Tonics

————————————————————————————

This signature all-male a cappella singing group is known around the world for its rich tradition of musical and performance excellence. With a repertoire centred on American jazz standards of the 1920s, '30s, and '40s, these spiffy Ivy League gentlemen—who perform in white tie, tails, and lime green socks—have garnered a large following thanks to their impeccable musicality, snappy choreography and hilarious antics. Since 1979 the Dins have been delighting audiences by combining the traditional with the unexpected; consistently adding original, humorous, engaging choreography to perform a cappella 'with a twist'. The Dins have performed at Fenway Park, recorded an album in the legendary Sun Studios in Memphis, appeared in the Hollywood flick 'Mona Lisa Smile', on the TV Shows Good Morning America and The Price is Right, entertained former U.S. President Bill Clinton and even wowed the socks off Ella Fitzgerald!
