

Vertiv showcases at DCD Thailand & Indochina 2018

Pichet Ketruam, (far right) Country Manager Vertiv Indochina participated in the interactive panel discussion on the “Data Center and Cloud Infrastructure Transformation in the Shadow of 5G, AI, Robotics” topic at the recent DCD Thailand & Indochina 2018 Summit at the Centara Grand and Bangkok Convention Centre, Central World. This regional summit for Data Center and Cloud Infrastructure convened more than 350 senior data center and IT experts from both global business enterprises and government agencies. The summit highlights also featured a wide range of technology showcases, industry trends and insights on the 5G Technology, Artificial Intelligence (AI), Robotics, and IoT in driving the innovative and strategic development for Thailand and the wider Indochina region. Vertiv also showcased its SmartAisle solution, a row-based solution that integrates racks, power, cooling and monitoring for various IT applications.

Vertiv is a global leader in designing, building and servicing critical infrastructure that enables vital applications for data centers, communication networks and commercial and industrial facilities. Formerly Emerson Network Power, Vertiv supports today’s growing mobile and cloud computing markets with a portfolio of power, thermal and infrastructure management solutions including the Chloride®, Liebert®, NetSure™ and Trellis™ brands. Sales in fiscal 2016 were \$4.4 billion. For more information, visit VertivCo.com.
